

BRITISH SOCIETY OF TOXICOLOGICAL PATHOLOGY

THE NEXT CONTINUING EDUCATION SYMPOSIUM WILL BE:

CES 2: Liver

Tuesday 9th - Thursday 11th July 2019

University of Cambridge, Cambridge, UK

Approximately 17 hours of educational activity will be recorded on Attendance Certificates

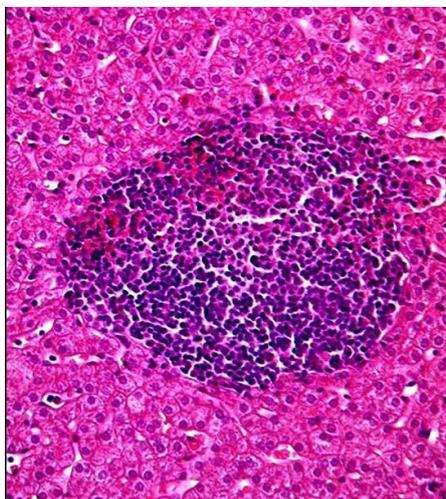

Approved by the Royal Society of Biology for the purposes of CPD, this event may be counted as approximately 51 credits

Registration for this symposium is now open!

The aim of the Continuing Education Symposium is to provide an interactive environment to enhance your knowledge in the field of toxicological, discovery, clinical, experimental or veterinary pathology. The Continuing Education Symposia are designed to refresh participants' knowledge and understanding of core principles, as well as discuss any important recent advances.

This Continuing Education Symposium will provide an intermediate level overview on the Liver including INHAND, rodent and non-rodent liver pathology and risk assessment as well as reviewing challenges with current research models.

The format will include presentations, case histories and active participation of delegates. The Continuing Education Symposium will be of 3 days duration and the programme will be arranged such that each individual day can be attended as stand-alone CPD if desired.

To reserve a place or if you would like further information about this symposium, please contact the BSTP Secretariat – bstpoffice@aol.com

Or visit the website for more information:

CES 3: Carcinogenesis

March 2020

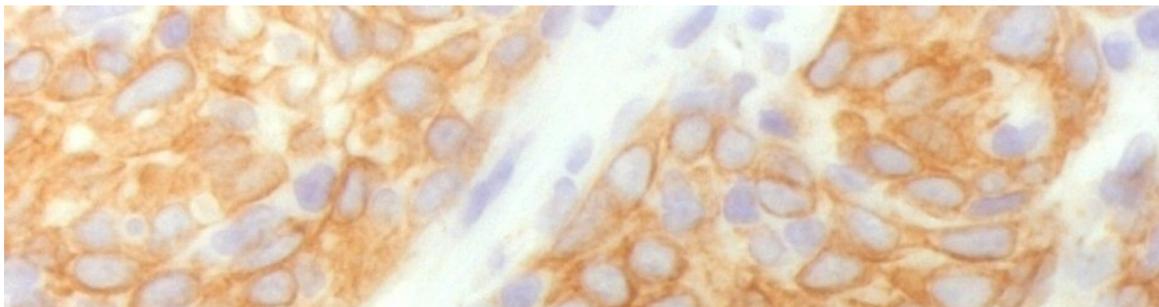

Department of Pathology, Cambridge, UK

Approximately 17 hours of educational activity will be recorded on Attendance Certificates
Royal Society of Biology CPD credits will be applied for

Registration for this symposium will open in December 2019

The aim of the Continuing Education Symposium series is to provide an interactive environment to enhance your knowledge in the field of toxicological, discovery, clinical, experimental or veterinary pathology. The Continuing Education Symposia are designed to refresh participants' knowledge and understanding of core principles, as well as discuss any important recent advances.

This Continuing Education Symposium will provide an intermediate level overview on Carcinogenesis and the challenges with current research models. Topics to be covered include (but are not limited to): How to understand the relevance/future of rodent 104 week studies; how to interpret carcinogenicity data in the risk assessment of novel chemicals and pharmaceuticals; familiarisation with the latest molecular techniques used in the research and exploration of carcinogenesis; how to differentiate spontaneous from test article-related lesions and tumours and, follow real-world case studies to refine your skills and knowledge around regulatory authority.

The format will include presentations, case histories and active participation of delegates. The Continuing Education Symposium will be of 3 days duration and the programme will be arranged such that each individual day can be attended as stand-alone CPD if desired.

To reserve a place or if you would like further information about this symposium, please contact the BSTP Secretariat – bstpoffice@aol.com

Keep checking the website for more information: <http://www.bstp.org.uk/events>

DATES FOR FUTURE EVENTS TO BE ORGANISED BY THE BSTP:

There are so many great ways to learn and increase your CPD portfolio these days: You can read books, listen to podcasts, watch how-to videos, attend webinars, take part in 'in-house' training, just to name a few. Why bother with the time and expense of attending BSTP events?

Here are 7 reasons why you should attend events organised by the BSTP:

- *Meet the speakers face to face and benefit from their experience*
- *Networking opportunities with your peers*
- *Learning in a new space to increase your knowledge on the subject matter*
- *Break out of your comfort zone to learn something new*
- *Invest in yourself to improve your employment opportunities*
- *Increased knowledge will help when sitting examinations*
- *The topics covered in these events are unlikely to be repeated*

The order of the CES will depend on the availability of high-quality speakers who are world experts in their particular field to present at the relevant meeting.

9th - 11th July 2019	CES 2 - Liver
19th - 20th November 2019	34th Annual Scientific Meeting (& AGM) held jointly with the BTS – Emergent epigenetic therapies
March 2020	CES 3 - Carcinogenicity
July 2020	CES 4 - Respiratory System
November 2020	35th Annual Scientific Meeting & AGM
March/April 2021	CES 5 - Male Reproductive System
July 2021	CES 6 - Female Reproductive System
November 2021	36th Annual Scientific Meeting & AGM
March/April 2022	CES 7 - Infectious diseases in laboratory animals
July 2022	CES 8 - Nervous System
November 2022	37th Annual Scientific Meeting & AGM
March/April 2023	CES 9 - Urinary System
July 2023	CES 10 - Digestive System
November 2023	38th Annual Scientific Meeting & AGM
March/April 2024	CES 11 - Cardiovascular System
July 2024	CES 12 - Endocrine System
November 2024	39th Annual Scientific Meeting & AGM
March/April 2025	CES 13 - Urinary System
July 2025	CES 14 - Lymphoid & Haematopoietic Systems
November 2025	40th Annual Scientific Meeting & AGM
March/April 2026	CES 15 - Musculoskeletal System & Skin

For more information on any of these meetings, keep checking the website - <http://www.bstp.org.uk/events> or contact the BSTP Secretariat - bstpoffice@aol.com

Details of future meetings are correct at the time this information is produced, the BSTP will not be held responsible for any changes to dates, venues and topics of these events.
