

International Academy of Toxicologic Pathology (IATP) Awards

(1) IATP/JSTP Food Safety Scientific Award

The IATP, together with the ESTP, JSTP and STP, is pleased to announce the implementation of the Food Safety Scientific Award sponsored by a grant from San-Ei Gen F.F.I., Inc.

The award recognizes a food-related poster presentation, oral presentation, or scientific publication by a young investigator or trainee.

The successful applicant will have demonstrated achievements in food-related toxicologic pathology including but not limited to:

- Research contributing to food additive safety as it relates to the health effects of foods and food ingredients;
- Establishing test methods and standards that enhance the field of toxicologic pathology that are applicable to food; and/or
- Developing new or novel uses of toxicologic pathology in food safety research.

Awards will be presented at the annual meetings of ESTP, JSTP and STP. The award consists of a certificate and U.S. dollar market equivalent of ¥100,000.

(2) The Charles Capen Trainee Award

The Charles Capen Trainee Award given by IATP recognizes Dr. Charles Capen and his legacy as a researcher, teacher, and mentor to the pathology and toxicology communities spanning more than four decades. Dr. Capen was recognized worldwide as an exceptional leader in veterinary and biomedical research. He was a highly regarded mentor to numerous graduate students and postdoctoral scientists.

The Academy funds a cash award which can be used by the successful applicant to attend a conference of a Society of Toxicologic Pathology or related meeting. Funds may be used for travel and/or meeting registration or any other related expenses.

The successful applicant must be a pathology, toxicology or toxicologic pathology trainee. A trainee is defined as an individual working on an academic degree, in a training or residency program, or in a postdoctoral training position and have demonstrated achievements in the field of toxicologic pathology including but not limited to:

1. Research contributing to public safety as it relates to the adverse health effects of xenobiotics;
2. Establishing test methods and standards that enhance the field of toxicologic pathology; and/or
3. Developing new or novel uses of toxicologic pathology in safety research.

The Society who is hosting the meeting where the award will be given will be responsible for advertising the award, setting the criteria for selection, and establishing deadlines for receiving applications as well as choosing the recipient of the award. Suggested criteria for the selection of the award recipient

may be from oral presentations, poster presentations, published papers, statement of career goals, or any combination of these criteria.

The IATP will present the recipient with a certificate and a cash award. A Fellow of the IATP will present the award at your meeting awards ceremony.
